Career Objective

Detail-oriented Computer Science Engineering graduate with strong skills in programming, web development, and database management. Seeking an entry-level role to apply technical knowledge to real-world problem solving and build scalable applications. Passionate about learning new technologies and contributing to innovative development teams.

Education

Sri Shakthi Institute of Engineering and Technology

BE in Computer Science & Engineering

Oct 2021 – May 2025

- **CGPA:** 7.95/10
- **Coursework:** Object-Oriented Programming, Database Management Systems, Problem Solving.

Projects

Car Rental System

Java, Spring Boot, Spring Data JPA, Hibernate, REST APIs, MySQL, React.js

[github.com/CarRental](https://github.com/kalirishik/CarRental) 🔗

- Developed a full-stack Car Rental System with role-based access, enabling users to browse cars, book rentals, and track booking status.
- Implemented car management (CRUD), search and filtering, and a booking workflow with date validation and admin approval/rejection using REST APIs.
- Designed a responsive React UI integrated with a Spring Boot backend and MySQL database for efficient data handling and seamless user experience.

Quiz Application

Java, Spring Boot, Spring Data JPA, Hibernate, REST APIs, MySQL

[github.com/QuizApp](https://github.com/kalirishik/QuizApp) 🔗

- Developed a microservices-based Quiz Application enabling users to generate quizzes, attempt questions, and receive real-time scores.
- Implemented question and quiz services with CRUD operations, pagination, and category- and difficulty-based quiz generation using REST APIs.
- Designed a scalable architecture using API Gateway, Eureka, and Feign Client for efficient service communication and modular deployment.

Internship

Database Engineer Intern

Digient Technologies

[certificate link](#) 🔗

- Worked with MySQL and MongoDB to manage and optimize database operations.
- Learned database functionality, query optimization, indexing, and performance tuning.
- Assisted in database administration tasks including backup, security, and user management.

Skills

- **Programming & Frameworks:** Java, Spring Boot, Microservices, JUnit.
- **Database & ORM** : MySQL, MongoDB, Hibernate, Spring Data JPA.
- **Web Technologies** : HTML, CSS, JavaScript, React.js.
- **Tools & Platforms** : IntelliJ IDEA, MySQL Workbench, Postman, Git, GitHub.
