🔗 Resume : [Link](#)

Dear Hiring Manager,

I am writing to apply for a software development opportunity where I can utilize my skills and grow professionally. I am a Computer Science Engineering graduate from Sri Shakthi Institute of Engineering and Technology with knowledge of **Java, MySQL, Spring Boot, HTML, CSS, JavaScript, React.js**, and **MongoDB**, along with a strong understanding of database management.

I have worked on projects such as a **Car Rental System**, built using Java, Spring Boot, MySQL, and web technologies including HTML, CSS, JavaScript, and React.js. This project helped me strengthen my coding skills, problem-solving abilities, and understanding of both backend and frontend development. I am also familiar with GitHub and collaborative development practices.

I completed a **Database Engineer Internship** at Digient Technology, where I worked with MySQL and MongoDB, improved database performance, and gained hands-on experience in query optimization and indexing techniques.

I am eager to learn, hardworking, and ready to contribute to your team. I believe my technical skills, adaptability, and positive attitude make me a **strong fit for your organization**.

Thank you for considering my application. I look forward to the opportunity to discuss how I can contribute to your team.

Sincerely,

Kali Rishi K
