Work Experience

Software Systems Engineer | GRAHAA SPACE

Aug 2024 - Present | Bangalore , Karnataka

- Built and deployed full-stack web applications using React, Node.js, and PostgreSQL, streamlining data visualization for satellite analytics. Automated data processing workflows with N8N, reducing manual effort by 90%. Integrated ML-based object detection APIs into applications, enabling real-time satellite imagery insights.
- Gained industry exposure at ISRO International Space Expo, TIE Global Summit, and Startup Mahakumbh events.

Innovation Engineering Trainee | FORGE

INNOVATION AND VENTURES

Feb 2024 - July 2024 | Trichy ,Tamilnadu

- Completed a program focused on innovation, hardware-software integration, and real-world problem solving.
- Gained hands-on experience in electronics design, robotics, and mobile app development.

Networking Intern | BSNL

July 2023 - Aug 2023 | Trichy ,Tamilnadu

- Learned core networking concepts and telecom infrastructure.
- Gained exposure to network topologies, switching, routing, and broadband technologies used in BSNL operations.

Projects

Personal Expense Tracker | Mini Project

- Designed and developed a web-based application to track daily income and expenses.
- Implemented the front end using HTML, CSS, and JavaScript.

Crime Classification with Deep learning

| IBM Project Under Naan Mudhalvan Scheme

- Developed a deep learning model to classify crime reports with 89% accuracy.
- Processed large datasets using Python (TensorFlow/Keras) for efficient analysis.

AI Powered UAV for Crop Management | Major

- Captured crop images using drones and Raspberry Pi cameras for disease detection.
- Applied DenseNet and CNN models for image analysis with 82% accuracy.
- Integrated results into a simple dashboard for monitoring crop health.

Professional Summary

Full-Stack Engineer with hands-on experience building scalable applications using React, Node.js, PostgreSQL, and REST APIs. Skilled in automation and integrating ML models into web applications to deliver intelligent features. Strong foundation in Python, Java, and cloud platforms. Proven ability to deliver real-time solutions and solve complex problems, with 250+ problems solved on LeetCode. Passionate about writing clean, maintainable code and committed to continuous learning.

Education

B.E (CSE)

Government College of Engineering Srirangam, Trichy.

2020 - 2024

CGPA: 8.49

HSC, SSLC

S. Shunmugasundara Nadar Higher Secondary School, Thoothukudi

2017 - 2020

HSC : 88.16 | SSLC : 95.4

Certifications & Achievements

- Finalist – Smart India Hackathon 2022, built grammar learning web app using HTML & JS.
- Attended blockchain and cybersecurity workshop at GCE Srirangam.
- Certified in Java Full Stack Development by EduBridge (Java, Spring Boot, MySQL)
- Certified in DevOps by GUVI (CI/CD, Docker, Jenkins, cloud basics)

Technical Skills

- Languages : Python, Java, Javascript
- Web : React, Node JS, Express JS, REST APIs
- Databases: PostgreSQL, MySQL
- Tools & Platforms: Git, Cloud, Postman, VS Code, Colab

Soft Skills

- Teamwork
- Communication
- Time Management
- Continuous Learning

Other Engagements

- NSS Volunteer – Participated in social outreach and community development
- Zonal-level Ball Badminton Winner – Represented college in district-level competitions
