SKILL SUMMARY

OS & Subsystems	Windows XP/7
Languages	C, C++, Java, Kotlin
Databases	MS-Access, My-Sql, SQL Lite
Database Client	SQL Yog
Internet Technologies	HTML, JSP.
Java IDE's	Eclipse, NetBeans, Android Studio
Server	Tomcat
Mobile Technologies	J2ME, Android, Kotlin Multi platform (KMM)
Tools	ClearQuest, ClearSky, JIRA.
Scripting languages	Java Script, Angular Java Script.

PROFESSIONAL EXPERIENCE**1. Home assistant**

Technology Used	Android, Kotlin, Kotlin multi platform (KMM)
Organization	HCL Technologies Ltd

Client	Verizon Communications
Duration	Around 8 Month (FEB 2025 – Oct 2025)
Description	It is mobile app.It is separate module of plus home app.It enables the voice/type faced features similar to AI of the home automation in the plus home app.
Responsibilities	Integration of the home assistant sdk in the android app of home app. Debugging issues. Analysations of the activity and fragment challenges of the home assistant library integration.

2. Service id

Technology Used	Android, Kotlin, Kotlin multi platform (KMM)
Organization	HCL Technologies Ltd
Client	Verizon Communications
Duration	Around 6 months (SEP 2024 – FEB 2025)
Description	It is mobile app. It is separate module of plus home app. It enables the user can access their data with respect to subscriptions like monthly subscription ,daily subscription which one is high, etc.That is used for understanding customer bandwidth, etc.
Responsibilities	Implementations/Updates of the library methods for getting daily data and weekly data. Implementations/Updates, barchars updates of the integrations of the daily data and weekly data in the android app. Bug fixing debugging issues,etc.

3. Home Automation

Technology Used	Android, Kotlin, Kotlin multi platform (KMM)
Organization	HCL Technologies Ltd
Client	Verizon Communications
Duration	Around 13 months (SEP 2023 – SEP 2024)
Description	It is mobile app.It is separate module of plus home app.It enables the controlling the lights ,fan, thermostat,etc. from the plus home app. Device on boarding, off boarding via home app modules.
Responsibilities	Implementations/Updates of the library implmentations/integrations the create scene, delete scene.edit scene,test scene,devices list,geo fencing. Ui updates for scenes ,geo fencing,etc. Debugging apps,etc

4. Verizon Home app

Technology Used	Android, Kotlin, Kotlin multi platform (KMM)
Organization	HCL Technologies Ltd
Client	Verizon Communications
Duration	Around 13 months (AUG 2022 – AUG 2023)
Description	It is mobile app. It is similar to smart display app. It is used for trouble shooting , accessing the account related things, etc.
Responsibilities	Implementations/Updates of the modules wifi handling , Updates of the

wifi,TLM,handling container api. Bug fixing. Various UI improvements.

5. Smart Display

Technology Used	Android, Java,Kotlin
Organization	HCL Technologies Ltd
Client	Verizon Communications
Duration	Around 27 months (JUN 2020 – AUG 2022)
Description	It is system app for verizon customers. It ported in the smart display device. Its enables the customers to trouble shoot the network issues,bill payment,etc. Voice based alexa also integrated.
Responsibilities	Implementations/Updates of the modules wifi handling, wifi auto connect,router restart/reset improvements,etc.

6. Video streaming POC

Technology Used	Android, Java.
Organization	HCL Technologies Ltd
Client	HCL Technologies Ltd
Duration	Around 2 months (MAR 2020 – MAY 2020)
Description	Its kind of POC project for video streaming .Playing the video with adds using exo player api etc.
Responsibilities	Implementations of the complete application. Adding new features, bug fixing, etc.

7. Tracking Daily Expenses App – Version 2

Technology Used	Android, Java, Kotlin
Organization	HCL Technologies Ltd
Client	HCL Technologies Ltd
Duration	Around 5 Months (SEP 2019 – FEB 2020)
Description	Its kind of POC project for used for tracking daily expenses, etc.It is updated version of its previous version. Using kotlin,etc.
Responsibilities	Implementations of the complete app. Adding the new features, debugging the issues, etc.

8. Tracking Daily Expenses App

Technology Used	Android, Java
Organization	HCL Technologies Ltd
Client	HCL Technologies Ltd
Duration	Around 8 months (FEB 2019 – SEP 2019)
Description	Its a Poc project. Its daily expenses tracking app.It captures the daily expenses and save in the local DB. User can view report also based on weekly, monthly filters, etc. Using MVVM design pattern.

Responsibilities	Implementations of the complete app. Adding the new features, debugging the issues, etc.
-------------------------	--

9. ImageLoading v2

Technology Used	Android, Kotlin
Organization	HCL Technologies Ltd
Client	HCL Technologies Ltd
Duration	Around 8 months (JUN 2018 – FEB 2019)
Description	Its a Poc project. Its updated version of the image loading project. It have additional features ,improved error handling techniques, etc.It is using MVVM design pattern.
Responsibilities	Implementations of the complete app. Adding the new features, debugging the issues, etc.

10. ImageLoading

Technology Used	Android,
Organization	HCL Technologies Ltd
Client	HCL Technologies Ltd
Duration	Around 2 months (MAY 2018 – JUN 2018)
Description	Its a Poc project. Displaying large set of images in the device .Using Volley Api for caching ,etc.
Responsibilities	Implementations of the complete app.

11. Xerox-Office Solutions Customization

Technology Used	Android, Angular Js, HTML
Organization	HCL Technologies Ltd
Client	Xerox Corporations.
Duration	Around 3 months (MAR 2018 – MAY 2018)
Description	This app is replaces the GUI present in the MFD.This app is acted as an interface between the user, store supervisor and others to the MFD.Via this the MFD is controlled by the store supervisor, users and others with respect to their logins.
Responsibilities	Implementations of the custom simulator app in android. Integrarion of the simulator app as a library of main project.

12. RealWear AR demo

Technology Used	Android, WearML Script,Kotlin
Organization	HCL Technologies Ltd.
Client	HCL Technologies Ltd.
Duration	Around 2 months (FEB 2018 – MAR 2018)
Description	Its a Poc project. Its an android apps runs on HMT-1 devices. It enables

	service engineer to see videos, information of the service via visual.	
Responsibilities	Implementations of the UI, custom components, library module, etc.	

13. R3 US Mobile App

Technology Used	Android, Angular Js, HTML.	
Organization	HCL Technologies Ltd	
Client	Western Union Inc.	
Duration	11 months (APR 2017 – FEB 2018)	
Description	It is a banking app. It is used for money transfer and other modes of transfers. Multiple versions of apps for multiple countries.	
Responsibilities	Implementations of adding credit card flow in the menu modules. Implementations of the java script event handling, etc	

14. MyDigi App

Technology Used	Android	
Organization	HCL Technologies Ltd	
Client	Digi Telecommunications.	
Duration	13 months (Feb 2016 – Mar 2017)	
Description	Built and deployed a full scale Telecommunication application which would use by the service providers, customers, etc. Deep link sms for payment, etc. Acted as a replacement of the Digi store for the customer with respect the reload, bill payment, new connection, etc.	
Responsibilities	Implementations of the deep link of various modules such as payment, trouble shoot, etc. Implementations of the modules such as store locator, reward points, etc. Updating source code for better memory management.	

15. Staple Customization

Technology Used	Android, HTML, Java script, Angular Java script.	
Organization	HCL Technologies Ltd	
Client	Xerox Corporations.	
Duration	3 Months (Nov 2015 – Jan 2016)	
Description	Built and deployed a full scale scan, fax, print application which would work for any organizations with customizations. Device (Printer, scanner, etc.) searching from the client via USB tethering, etc. Scanned files are downloaded to client and updated to the clouds such as google drive, Box, Evernote, etc. Acted as a replacement of the MFD's console screen, etc.	
Responsibilities	Updating the code for coding standards, memory management, better library management, etc. Debugging the issues.	

16. Xerox Mobile Link (XML)

Technology Used	Android
Organization	HCL Technologies Ltd
Client	Xerox Corporations.
Duration	7 Months (Apr 2015 – Nov 2015)
Description	Built and deployed a full scale scan, fax, print application which would work for any organizations with customizations. Device (Printer, scanner, etc.) searching from the client via local network. Uploading and downloading scanned files from cloud like google drive, drop box, etc
Responsibilities	Involved in the design and development of the client side application for the various clouds such as Evernote, share point online, etc. Implementations of the evernote cloud modules.

17. Pidilite Retailer Application (Version 2)

Technology Used	Android
Organization	Ivy Mobility Solutions.
Client	Pidilite.
Duration	4 Months (Jan 2014 – Apr 2015)
Description	Built and deployed a full scale retailer application which would work for any retailer store with customizations. Generating various reports. Sales man location tracking, etc
Responsibilities	Business requirements gathering from various business groups. Involving in the design ,development, unit testing, etc. Design of UI including mock screens.

18. Delivery Challan Application (DCA)

Technology Used	Android
Organization	Ivy Mobility Solutions.
Client	Ultratech.
Duration	5 Months (Aug 2013 – Dec 2013)
Description	DCA is the application which is used to manage delivery of goods on the operations department. Application being used in factory inventory management, warehouses, retail locations. Applications accessed in tablet.
Responsibilities	Collecting business requirements. Implementations of the client side app. UI interface development.

19. Pidilite Retailer Application

Technology Used	Android
Organization	Ivy Mobility Solutions.
Client	Pidilite.
Duration	4 Months (April 2013 – July 2013)

Description	General Retailer Application is used by Retailing unit, Sales unit and Customer Service Unit. It is accessible in the tablet ,mobile, etc.Order tracking, billing in online, etc are added.
Responsibilities	Involved in design and development. Source code updates for quality ,etc

20. Tethering Application

Technology Used	Android
Orgnaization	Ivy Mobility Solutions.
Client	Ivy Mobility Solutions.
Duration	3 Weeks (March 2013)
Description	Tethering application which is used to upload, download data via tethering from the intermediate server with encryption/decryption. It enables the data transfer via sockets.
Responsibilities	Requirement gathering design and development. Android application deployment against various devices. Post release support,

21. Ghari SD

Technology Used	Android
Organization	Ivy Mobility Solutions.
Client	RSPL
Duration	9 Months (June 2012 – Feb 2013)
Description	This is General Trade Applications used by Retailing, Sales, and operations. It is used by sales man, Managers, Tso, Tsi, etc.Order taking, Tracking salesman, etc updated,
Responsibilities	Requirement gathering design and development. Implementations of client side validations

22. General Financial Inclusion

Technology Used	Java, J2ME,
Organization	Coromandel Infotech India Limited (C2IL)
Client	State Bank of Hyderabad (SBH)
Duration	16 Months (Feb 2011 – May 2012)
Description	This is General Financial Inclusion System used by financial institutions, such as retail banks, financial organizations, investment management firms, brokerage firms and asset management companies
Responsibilities	Design and development of the client side J2ME application. Debugging.

23. PRODUCTION TRACKING SYSTEM

Technology Used	Java, J2ME, OFBIZ
------------------------	-------------------

Organization	Rural Technology and Business Incubator (RTBI)
Client	XEROX CORPORATION
Duration	8 Months (June 2010 – Feb 2011)
Description	Production tracking system with the client server environment. Here mobile phone is used as client system is used to assign a task to worker and update the production details through mobile phone.
Responsibilities	Requirement gathering. J2ME application implementations.

24. WEB SERVER LOG ANALYZER

Technology Used	Java, JSP, HTML, My – SQL, Tomcat Apache.
Client & Organization	Biz Shadow Consultant.
Duration	6 Months (Dec 2008 to May 2009)
Description	This system is used by the employees, top management, clients, etc. of the organization etc. to know the popularity of the site, to know the information of the site visitors, information of the site development and improvement.
Responsibilities	Requirement gathering. Design and develop of web page. Validations, etc.

EDUCATION SUMMARY

DEGREE	YEAR	INSTITUTION
M.C.A	2006 – 2009	Sri Sairam Engineering College
B.SC (COMPUTER SCIENCE)	2003 - 2006	SRM Arts and Science College

Personal Data:

Name : J.SIVAKUMAR
 Gender : Male
 Date of Birth : 02/09/1984
 Father's Name : T. Jeyapandian
 Languages Known : English & Tamil
 Passport Number : T6984212
